

Point Pinole Regional Shoreline features a diverse population of bird species due to a myriad of habitats within its 2,315 acres. Bird life can be found on sandy shores, marshland, eucalyptus groves, meadows, and in a fresh water pond while meandering along the park's twelve miles of trails. Please do your part in protecting Point Pinole's unique ecosystem.

This list of common avian species is compiled in accordance with the 47th A.O.U. checklist as amended. Accidentals have been omitted from the checklist. Please report any unusual bird sightings by calling (510) 525-2233.

This bird list is provided as a public service of the Interpretive and Recreation Services Division of the East Bay Regional Park District. www.ebparks.org Revised: 1/07 (B. Facendini)
