

Existing, Voter-Approved Funding at Work

Wildfire Protection and Healthy Forests – East Bay Hills

- Removal of 500 acres of flammable and hazardous vegetation annually
- Maintaining safe and healthy forests

Point Pinole Regional Shoreline – Richmond Dotson Family Marsh and Atlas Road Bridge Entrance

- New 1.5-mile Bay Trail segment
- Restoration of 60 acres of marsh and wetland habitat
- New entrance on Atlas Road with new bridge, parking lot, bathrooms, picnic tables, and information kiosk

Tilden Regional Park – Berkeley Tilden Little Farm and Environmental Education Center

- Infrastructure updates, including sewer, drainage, roofs, and electrical service
- New ADA accessible bathrooms, picnic tables, and hand-washing stations at the Little Farm

McLaughlin Eastshore State Park – Berkeley, Emeryville, and Albany

- Extension of Bay Trail by 1 mile around Golden Gate Fields at Albany Beach
- Funding for police, fire, and maintenance services
- Restoration of grasslands at Berkeley Meadow, including native habitat for burrowing owl

Crab Cove Visitor Center – Alameda Robert Crown Memorial State Beach

- Year-round open hours at Crab Cove Visitor Center
- Replacement of aging picnic tables and barbecues for safer, more enjoyable public use

Tidewater Boating Center – Oakland Martin Luther King Jr. Regional Shoreline

- New 12,300-square-foot Tidewater Boating Center, including training area, boat storage, and ADA accessible dock
- New picnic tables, grass meadow, and trails at East Creek Point Staging Area
- Restoration of habitat for wildlife, including endangered species such as the clapper rail

Measure CC investments. Measure FF is an extension of Measure CC, which was passed by voters in 2004.

Official Measure FF Ballot Question

Wildfire Protection, Safe Parks/Trails, Public Access, Natural Habitat. Without increasing tax rates, to protect against wildfires; enhance public safety; preserve water quality, shorelines, urban creeks; protect redwoods and parklands in a changing climate; and restore natural areas, shall East Bay Regional Park District be authorized to extend an existing parcel tax of \$1 monthly (\$12/year) per single-family parcel and 69¢ monthly (\$8.28/year) for multi-family units, raising approximately \$3.3 million annually, to expire in 20 years?

YES

NO

New boating center at MLK Jr. - Oakland

Measure FF Investments

Wildfire Protection • Safe Parks and Trails • Public Access • Natural Habitat

Excerpted from Official Measure FF Expenditure Plan.

1 Wildfire Protection/Safe Healthy Forests (East Bay Hills)

Continue sustainable forest management practices consistent with the approved Wildfire Hazard Reduction and Resource Management Plan to lessen the potential for wildland urban interface wildfire. Develop a redwood forest management plan. Provide for stewardship of natural vegetation to improve forest health. (The Park District does not clear-cut)

2 Redwood (Oakland)

Expand partnership with Save the Redwoods League for ongoing redwood conservation. Increase interpretation of redwood natural history. Provide for creek restoration and erosion control for visitor safety and watershed health.

3 Roberts (Oakland)

Expand partnership with Save the Redwoods League for ongoing redwood conservation. Increase interpretation of redwood natural history.

4 Tilden (Berkeley)

Restore recreational trails for erosion control and sensitive habitat protection. Improve access and pedestrian safety at the Brazil Room and Botanical Garden Visitor Center. Begin design planning for park-wide improvements at visitor use facilities such as the Environmental Education Center, Little Farm and Botanical Garden Visitor Center.

5 Crown Beach (Alameda)

Develop sea level rise interpretation with educational programming. Continue year-round Visitor Center services through staffing. Improve San Francisco Bay health by upgrading the beach-front storm water drainage system. Expand park and improve visitor use facilities.

6 McLaughlin Eastshore (Berkeley, Emeryville, and Albany)

Provide for shoreline and natural habitat protection across the State Park and Albany Bulb. Expand park personnel for increased wildlife conservation. Provide for protection and monitoring of burrowing owl habitat. Improve visitor use facilities.

7 Miller/Knox (Richmond)

Provide for shoreline protection and sea level rise adaptation using natural systems. Increase park staffing and upgrade Keller Beach visitor experience. Enhance drought tolerant landscape through stewardship improvements, such as removal of French broom and other invasive plants.

8 MLK Jr. Shoreline (Oakland)

Develop nature-based flood protection for shoreline and facilities in anticipation of sea level rise. Improve marsh habitat for endangered Ridgway's rail. Improve visitor experience with facility upgrades, and increased park and public safety personnel. Provide for expanded educational and recreational programming to serve the surrounding communities.

9 Anthony Chabot (Oakland)

Reduce storm erosion for improved creek water quality and natural habitat. Upgrade visitor use facilities. Increase recreational trail access and provide for trail safety structural improvements.

10 Temescal (Oakland)

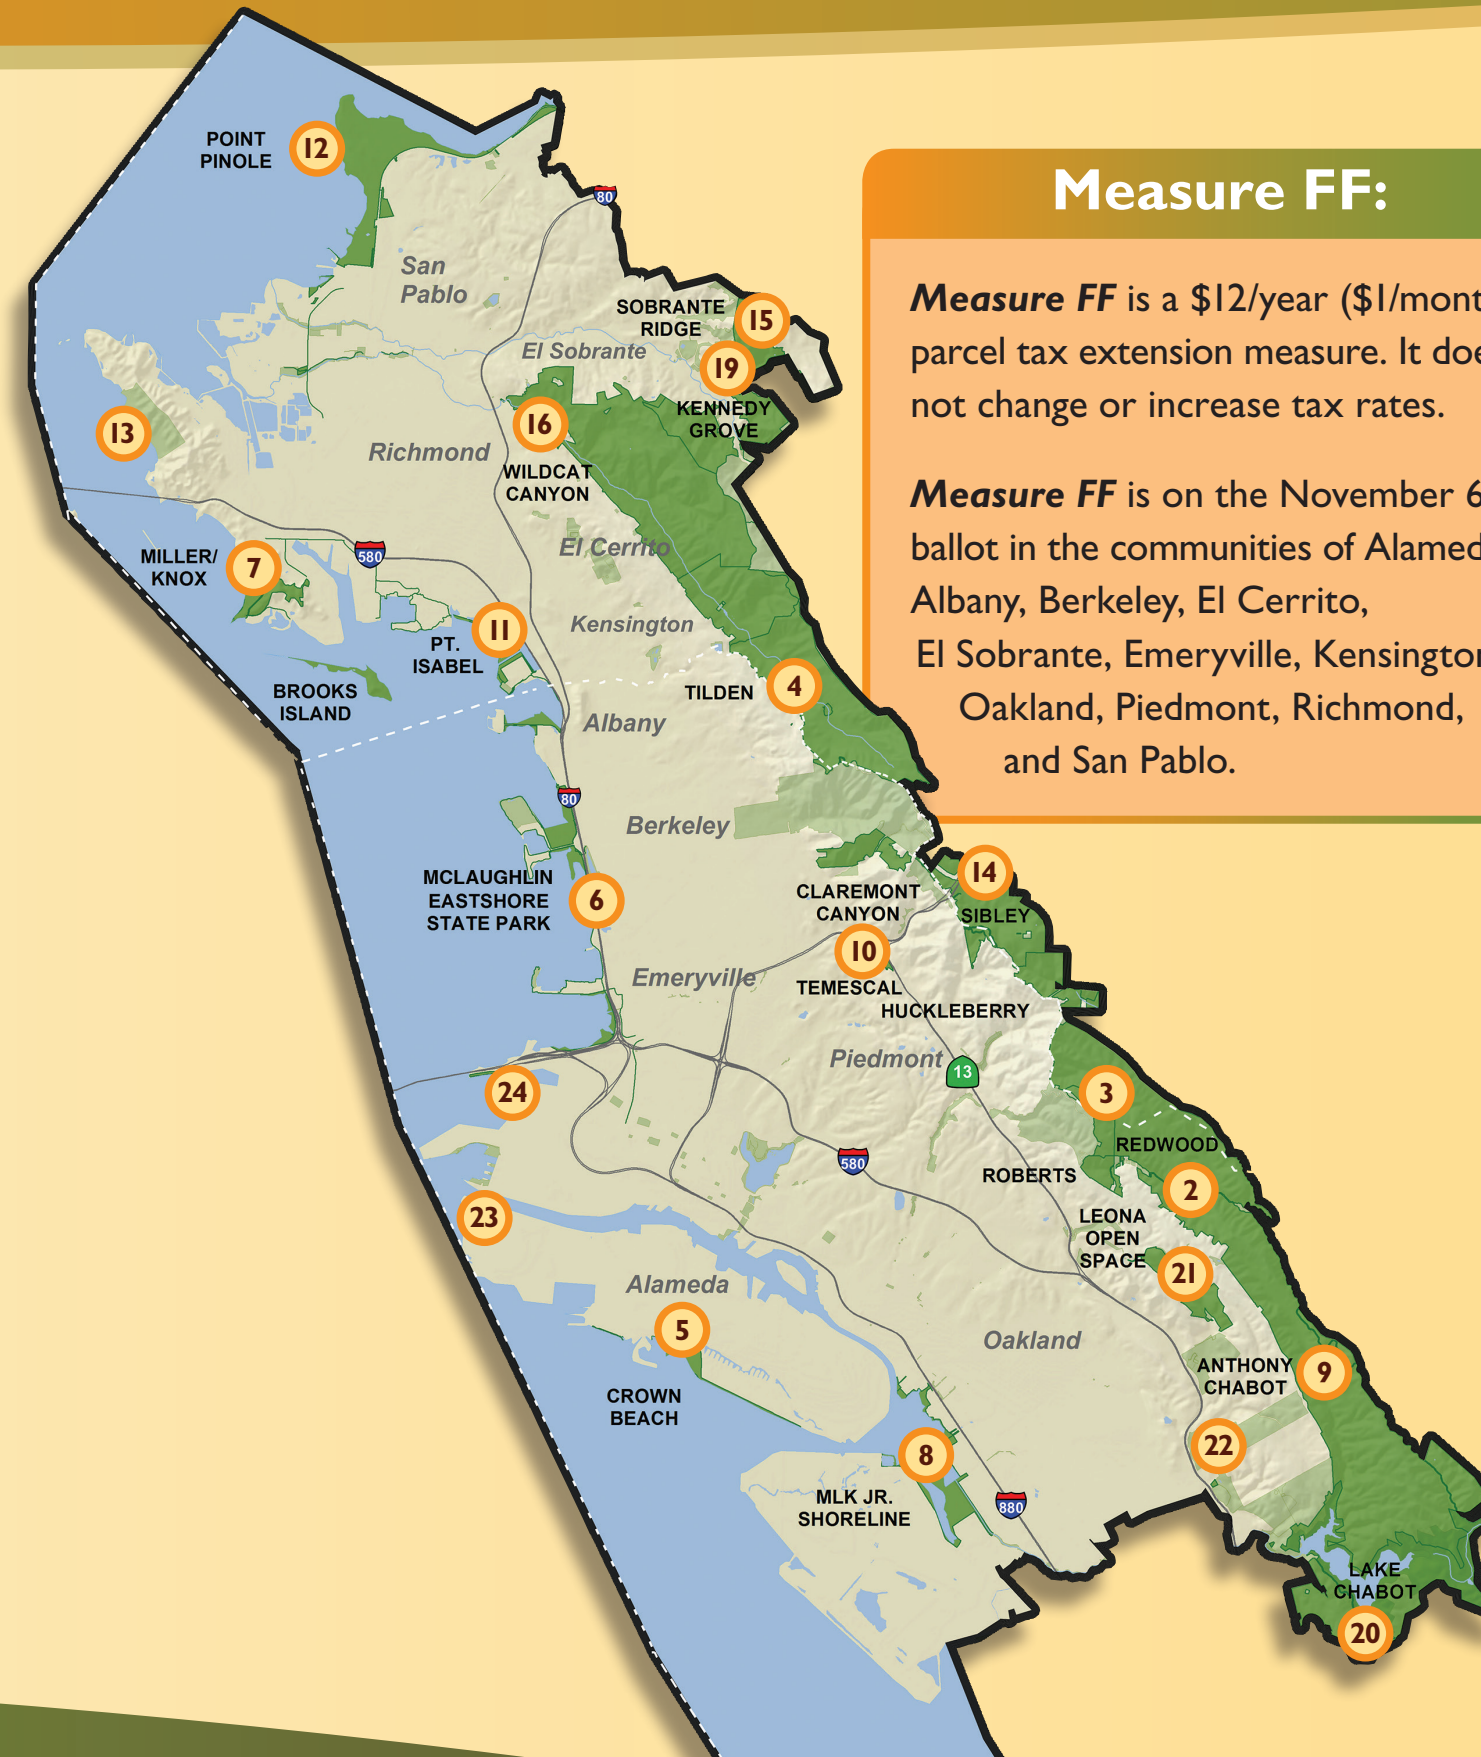

Improve water quality, habitat and recreational swimming experience at Lake Temescal with efforts such as dredging. Provide for erosion control to benefit watershed health and recreational trail safety.

11 Point Isabel (Richmond)

Stabilize banks of Hoffman Channel for shoreline protection, improved visitor access and healthier San Francisco Bay water quality. Provide for conservation for endangered Ridgway's rail habitat and environmental maintenance.

12 Point Pinole (Richmond)

Provide for shoreline protection through natural systems at Dotson Family Marsh. Enhance habitat of native grasses and other species. Improve visitor use facilities and San Francisco Bay water access. Increase educational and recreational programming to serve the surrounding communities.

Measure FF:

Measure FF is a \$12/year (\$1/month) parcel tax extension measure. It does not change or increase tax rates.

Measure FF is on the November 6 ballot in the communities of Alameda, Albany, Berkeley, El Cerrito, El Sobrante, Emeryville, Kensington, Oakland, Piedmont, Richmond, and San Pablo.

13 Point Molate (Richmond)

Provide for park and public safety personnel to develop, operate and maintain future park facilities and the San Francisco Bay Trail.

14 Sibley/Huckleberry/Clairemont (Oakland)

Enrich natural habitat for threatened pallid manzanita and other vegetation with increased stewardship efforts. Upgrade the Bay Area Ridge Trail for improved watershed health and trail safety. Increase park personnel.

15 Sobrante Ridge (El Sobrante)

Enrich natural habitat for threatened pallid manzanita and other vegetation through stewardship efforts.

16 Wildcat Canyon (Richmond)

Improve protection of Wildcat Creek watershed by mitigating erosion. Enhance and restore natural habitat throughout park. Increase ADA trail access and safety for visitors.

17 Green Transportation/Regional Trails (Measure FF Area)

Provide regional trail connectivity for commuters and safe routes to school, specifically in disadvantaged communities and along the San Francisco Bay Trail. Expand and maintain parkland trails to increase access while preventing erosion for protection of sensitive, natural habitats. Increase public safety patrol to enforce trail use ordinances in protection of wildlife. Explore potential to enter into partnership with transportation provider to increase park access.

18 Water Quality (Measure FF Area)

Improve water quality across parklands with stewardship efforts for watershed protection and preservation of shorelines, marshes, lakes, riparian areas and urban creeks. Manage harmful algae blooms for improved visitor and wildlife health. Increase water supply in preparation for climate related weather events with facilities such as rainwater collection systems. Install additional water bottle filling stations throughout region.

19 Kennedy Grove (El Sobrante)

Repair erosion of urban creek streambank for improved water quality, habitat and trail access.

20 Lake Chabot

Upgrade marina facilities for boating and fishing access, safety and experience.

21 Leona Canyon (Oakland)

Reduce erosion and sediment build up to improve water quality of creek through trail maintenance and stewardship efforts.

22 Oakland Zoo

Enhance conservation and stewardship efforts. Provide for youth engagement.

23 Alameda Point (Alameda)

Increase park and public safety personnel to operate a new regional park. Protect seasonal wetlands, Breakwater Beach shoreline and park facilities by designing for sea level rise adaptation using natural systems.

24 Gateway (Oakland)

Enhance tidal and intertidal habitat to provide for shoreline protection through use of natural systems. Convert existing paved lands to natural landscape. Increase public access to the San Francisco Bay Trail and newly constructed Bay Bridge bike path. Provide for park personnel to develop, operate and maintain future park facilities.
